### ⑥ Mission of obstetrics and gynecological nursing department 2025-2026

The Department of Obstetrics and Gynecology Nursing is committed to preparing graduates with scientific and practical competence to provide comprehensive and safe nursing care to women and their newborns at various stages of life, through an innovative educational environment that employs digital transformation and innovation in education and practice.

The department also seeks to develop the capabilities of students and faculty members in line with quality standards and academic accreditation, and to contribute effectively to community service through awareness programs and applied scientific research aimed at improving the health of women and newborns.

**Acting Head of the Department**

Dr. Eman Mohamed Abdelhakam
