

## Objectives of obstetrics and gynecological nursing department 2025-2026

1. Developing the educational process by applying modern teaching strategies that promote active learning and the development of clinical skills among nursing students.
2. Supporting applied scientific research in the fields of women's health and obstetrics, thereby contributing to the development of evidence-based nursing practices.
3. Provide high-quality nursing care to women at different stages of life, based on scientific evidence and professional ethics.
4. Support continuing education and professional development for nursing staff and women's health workers.
5. Strengthen cooperation between the department and health and community institutions to improve the quality of services provided to women.
6. Encourage the use of modern technology in nursing education and practice with the aim of increasing performance efficiency and improving the quality of care.
7. Prepare distinguished graduates who are able to compete in the local, regional, and international job market and who adhere to professional values and social responsibility.
8. Contribute to the achievement of the college and university's vision of local and international excellence in education, research, and community service.

**Acting Head of the Department**

  
Prof.Dr/ Eman Mohamed Abdelhakam
